

Terms and Conditions of Gold Service Contracts

Introduction

Our Gold Service products have been designed to provide our customers with a high quality central heating cover. These terms and conditions are provided to show you exactly what is, and what is not, covered. Please read this document carefully.

We have been as transparent as possible and we have tried to use simple terminology. If you have any questions about our Gold Service cover, please telephone 0345 2570130 or e-mail gold@statusheating.co.uk

Period of Cover and Acceptance

The contract is for a 12 month period from the date of acceptance and the receipt of funds for the contract cover (first Direct Debit if paid monthly). The decision to accept an appliance on to cover is at the absolute discretion of Status Heating Limited

The cover is subject to an initial inspection which will normally take place in the first 28 days. On this initial inspection we may well carry out the annual service at the same time (if your selected cover includes an annual service).

We reserve the right to terminate the agreement at this initial inspection if any of the following are found:

- × The boiler is made by one of the following manufacturers: Ferroli, Heatline, ELM Le Blanc
- × The boiler is over 15 years old
- × The boiler / central heating system does not meet current gas safety regulations
- × The boiler / central heating system is in poor repair / condition
- × The boiler / central heating system is included on our list of “unreliable” or “excessively expensive to repair” appliances.
- × The central heating system has been designed or installed incorrectly
- × There are signs of sludge in the system
- × The system is not a domestic installation
- × The boiler / central heating system is broken down at the time of taking out the cover
- × Access to work on the boiler / central heating system would form a Health & Safety risk (i.e. boiler installed in a loft with no boarding or access).

The customer will be informed of any remedial works that may be required to the system. If the customer agrees to have the works carried out, then the system will be accepted once these items have been completed and paid for.

Even if your system does not qualify for Gold Service cover we may still offer to repair and service your boiler / central heating system on a parts and labour basis.

Renewals

Before the end of your period of agreement we will contact you to tell you of any changes to the agreement, including any price changes for the following year. If you do not tell us in writing that you do not wish to renew your cover we will automatically renew your agreement for another year if you have chosen to pay by Direct Debit.

We reserve the right to review your cover on an annual basis. If your boiler / central heating system has passed the 15 year old threshold, or you have had an unusually high number / value of repairs during the period, we may inform you that we cannot continue to cover your boiler / central heating system on Gold cover. If this is the case, we will write to you to let you know of this decision. Once again, we may still offer to repair and service your boiler / central heating system on a labour and materials basis.

Payment for Cover

Payment for the cover may be made in one of two ways:

- 1) A Single lump sum by cash, cheque, debit or credit card (Visa, Mastercard or Amex).
- 2) Direct Debit over 12 equal monthly payments from a nominated bank account.

If paying by Direct Debit, the first monthly instalment will be taken approximately 2 weeks after acceptance and then in the first 10 days of each calendar month thereafter.

If a Direct Debit payment is returned, we will contact you to let you know. If a Direct Debit is returned for 2 consecutive months, then we reserve the right to terminate the coverage with immediate effect. At this point, the cover will be subject to the conditions laid out under the "Cancellation" section of this document.

Moving Home

If you are about to move home, please inform us as soon as possible, especially if you would like to continue your Gold Service cover in your new property. Although the cover is "portable" your new home will still be subject to the same initial checks as your existing home.

If we find that the boiler or central heating system does not qualify for Gold Service cover we may apply the cancellation charges as set out in the section "Cancellation" in this document.

Cancellation

If we cancel your agreement

If we have to cancel your agreement because of something that we find during our initial inspection we will give you a full refund. If we cancel your agreement after a later visit, your refund will be based on how long is left on your agreement.

If you cancel your agreement

If you cancel within the first 14 days we will give you a full refund of any money you have paid, unless we have carried out work, in which case cancellation charges may apply (see section entitled "cancellation charges").

If you cancel after the first 14 days and pay by monthly Direct Debit, we will continue to provide you coverage up to the end of the period covered by your last monthly payment. If you have paid by a lump sum, we will continue to cover you up to the end of that calendar month and then we will refund you the balance of what is left on the contract period value. In both circumstances this only applies if you have not had any work carried out by us in the period of cover. If you have had any works carried out cancellation charges may apply (see section entitled "cancellation charges").

Cancellation Charges

If you cancel your agreement part way through a cover period and have had works carried out, you may be charged a fee for the cancellation.

The charge will be calculated based upon the number and types of jobs that we have carried out at your home during the period, less any money that you have already paid in monthly payments.

We will base the charges on the following job values

Annual Service	£42.00
Boiler / central heating repair	£120.00

For example, Mrs. W cancels her agreement after 6 months, having paid monthly instalments of £15.00 per month, totaling £90.00. During the period she had a breakdown on her boiler which was repaired by our Company.

Using the job values above, Mrs. W would be charged the £120.00 for a repair, less the £90.00 already paid, giving an outstanding balance of £30.00. The £30.00 would be taken by Direct Debit.
